

SIVA SATYA SAI BHAGAVAN GOPALAJOSYULA

 +91-7569205626  g.sivasatyasaibhagavan@gmail.com  LinkedIn  GitHub  Portfolio

Professional Summary

AI & Data Science undergraduate with strong foundation in Full-Stack Development and Machine Learning. Experienced in building scalable MERN applications, REST APIs, authentication systems, and ML pipelines. Seeking Software Engineer roles in product-based or enterprise IT environments.

Education

Ramachandra College of Engineering, Eluru (JNTUK) <i>B.Tech in Artificial Intelligence and Data Science</i>	2022–2026 <i>CGPA: 7.5/10</i>
Srividhya Junior College <i>Intermediate (MPC)</i>	2020–2022 <i>78%</i>
Montessori English Medium High School <i>Secondary School (Class X)</i>	2019–2020 <i>95%</i>

Internships

MERN Stack Developer Intern <i>StudyOwl Education Pvt Ltd</i>	May–July 2025
– Built 15+ reusable React components and REST APIs serving 500+ users. – Implemented JWT authentication and RBAC. – Improved backend performance by 25% through query optimization.	
AI/ML Intern – Smart Sorting <i>SmartBridge (Remote)</i>	May–June 2025
– Developed CNN classifier achieving 92% validation accuracy. – Deployed optimized model via Flask REST API.	
Machine Learning Intern <i>Blackbucks (Remote)</i>	May–June 2024
– Performed preprocessing on 10K+ records; improved accuracy by 18%.	

Projects

Leave Management Automation System (Final Year Project) <i>Microsoft Power Apps, Power Automate, SharePoint</i>	2025
– Developed an automated employee leave management system using Microsoft Power Apps with SharePoint as the backend. – Integrated Power Automate workflows to handle leave approvals, notifications, and tracking, reducing manual processing.	
AI Chatbot Web App [GitHub] <i>MERN Stack + Python Backend</i>	2025
– Built a full-stack conversational AI web application using React, Node.js, Express, and MongoDB. – Integrated Python NLP backend APIs to generate chatbot responses and manage conversation data.	
Career Path Recommendation System [GitHub] <i>MERN Stack + Python Machine Learning</i>	2024
– Developed a web platform that recommends career paths based on user skills using a Python ML model. – Connected React frontend with Node.js APIs and Scikit-learn model for real-time recommendations.	

Technical Skills

Programming: Python, Java, C, JavaScript, SQL

Core CS: OOP, DBMS

Web Development: HTML5, CSS3, React.js, Node.js, Express.js, Flask, RESTful APIs, JWT Authentication

Databases: MongoDB, MongoDB Atlas, MySQL, Query Optimization, Indexing

Machine Learning & Deep Learning: Supervised Learning, CNN, NLP, TF-IDF, Feature Engineering, Model Evaluation, Cross-Validation, TensorFlow, Keras, Transfer Learning, MobileNetV2

Tools & Platforms: Git, GitHub, Postman, VS Code, Kaggle, Netlify, Render

Soft Skills: Problem Solving, Analytical Thinking, Debugging, Team Collaboration, Technical Documentation, Communication

Achievements

- Certified in Google Generative AI (Gemini).
- IBM SkillsBuild – Artificial Intelligence Fundamentals and Large Language Models.
- Simplilearn – Machine Learning with Python.
- Greek for Greeks – Full Stack Development ,Java, Python,Certification.
- Active participant in hackathons and technical coding competitions.

Hobbies

Solving Data Structures and Algorithms problems; building full-stack and AI projects; exploring emerging technologies in AI and Cloud Computing; contributing to GitHub and technical communities.
